Proceedings (Plant Sciences)

Volume 90, 1981

SUBJECT INDEX (Plant Sciences)

Abnormal stomata
Structure and development of normal and abnormal stomata in the seedlings of some Cruciferae 521

Adventitious bud
Initiation of adventitious buds in tuberous roots of *Ipomoea batatas* 541

Algae
Studies on the algae of Ambazari water treatment plant 299

Algicidal value
Studies on the algae of Ambazari water treatment plant 299

Amanita muscaria
Factors affecting the production of fruit-bodies of *Amanita muscaria* in plantations of *Pinus patula* 91

Amaryllis vittata
Optimum cultural requirements for *in virto* germination of *Amaryllis vittata* Ait (Amaryllidaceae) pollen 363

Ambazari water resource
Studies on the algae of Ambazari water treatment plant 299

Amino acid composition
Amino acid composition and protein efficiency ratio (PER) of *Spirulina platensis* 451

Amphora coffeaeformis
Relative concentrations of Na, Ca and Mg for growth of some diatoms 169

Anatomy
Structure and development of normal and abnormal stomata in the seedlings of some Cruciferae 521

***Anethum sowa* Linn**
Studies on the developmental anatomy of Umbellifers. II. Stem-node-leaf continuum 457

Angiospermae
Revision of the genus *Sibbaldia* L. (Rosaceae) in India 253

Anisocytic
Ontogeny of the tricytic stoma — Variations and modifications 85

Anomocytic
Ontogeny of the Anomocytic stoma — variations and modifications 245

Anthocyanins
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293

Apical growth
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143

Apomixis
Reproduction in two species of *Arundinella* Raddi, Poaceae 477

Apospory
Reproduction in two species of *Arundinella* Raddi, Poaceae 477

A. purpurea
Reproduction in two species of *Arundinella* Raddi, Poaceae 477

Arundinella mesophylla
Reproduction in two species of *Arundinella* Raddi, Poaceae 477

Asclepiadaceae
A new Brachystelma (Asclepiadaceae) from Kolar, Karnataka 203

Ascorbic acid
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217

Asexual phase
Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi* 45

Asteraceae
Ontogeny of the ovule, seed coat and fruit wall of *Dicoma tomentosa* Cass., Asteraceae 177

Axial parenchyma cells
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng 425

Bioisomerism
Seedling handedness in Fabaceae 231

Boerhavia diffusa
Morpho-histologic studies on three herbaceous species of railway track 305
Boronia
Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae) 9
Brachiaria mutica
Sporulation of *Pyricularia* spp., Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* 389
Brachystelma kolarenses
A new Brachystelma (Asclepiadaceae) from Kolar, Karnataka 203
Brassica juncea
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281
Bridelia retusa
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng 425
Buffer
Effect of buffer and pH on growth and protein content of carrot (*Daucus carota* L.) in liquid shake culture 183
Butterfly
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509

Cambium
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143
Capsicum annuum L.
Some histochemical observations on leaf abscission zone in *Capsicum annuum* L. 435
Carbohydrates
Growth, development and carbohydrates in purple nutsedge 413
Carpel infection
Carpel infection and establishment of downy mildew mycelium in pearl millet seeds 99
Carrot
Effect of buffer and pH on growth and protein content of carrot (*Daucus carota* L.) in liquid shake culture 183
Carveol
Mutation studies in *Mentha spicata* L. 211
Carvone
Mutation studies in *Mentha spicata* L. 211
Cassia kolabensis
Interesting new species of *Cassia* Linn. (Leguminosae) from Kolaba (Maharashtra) 199
Caterpillars
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509
Cellophane
Fruiting of some light-requiring fungi as influenced by cellophane 137
Cell wall degradation
Histological changes in the gum-resin producing cell system in *Commiphora mukul* Engl. induced by mechanical injury 129
Chemotaxonomy
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217
Chlorflurenol
Modification of sex-expression and fruit-formation on male plants of *Morus nigra* L. by chlorflurenol 395
Chlorophyll *a* fluorescence
Effect of chemical reductant and photosystem II light on the yield of chlorophyll *a* luminescence in isolated chloroplasts 353
Chromatin migration
Cytomixis in pollen mother cells of an exotic variety of *Trigonella foenum-graecum* L. 285
Cleome viscosa
Morpho-histologic studies on three herbaceous species of railway track 305
Colletotrichum Capsici
Development of resistance in *Gloeosporium ampelophagum* and *Colletotrichum capsici* to fungicides 535
Commelina benghalensis L.
Sporulation of *Pyricularia* spp. : Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L. 389
Commiphora mukul
Histological changes in the gum-resin producing cell system in *Commiphora mukul* Engl. induced by mechanical injury 129
Conidial maturity
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Corpolite
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509

Coriandrum sativum L.
Studies on the developmental anatomy of Umbellifers. II. Stem-node-leaf continuum 457
Cotton
Cytomorphological studies in x-ray induced glandless haploids in *Gossypium hirsutum* L. (cotton) 313
Cruciferae
Structure and development of normal and abnormal stomata in the seedlings of some Cruciferae 521
Cultivars
Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 553
Cuticles
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509
Cyclotella meneghiniana
Relative concentrations of Na, Ca and Mg for growth of some diatoms 169
Cytology
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* L. Beauv. complex 217
Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids 227
Investigations on cytogenetics and development of improved pest-resistant eggplant germplasm 59
Cytomixis
Cytomixis in pollen mother cells of an exotic variety of *Trigonella foenum-graecum* L. 285
Cytomorphological studies
Cytomorphological studies in x-ray induced glandless haploids in *Gossypium hirsutum* L. (cotton) 313
Cytoplasmic bands
Cytomixis in pollen mother cells of an exotic variety of *Trigonella foenum-graecum* L. 285

Dactyloctenium aegyptium
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217
Delonix regia
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143
Delphinidin 3-monoglucoside
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293
Development
Ontogeny of the Anomocytic stoma — variations and modifications 245
Distribution
Seasonal variation and distribution of fungi in two freshwater ponds of Andhra Pradesh, India 237
Downy mildew
Carpel infection and establishment of downy mildew mycelium in pearl millet seeds 99

Embryogeny
Embryogenesis in sexual and asexual species of *Zeuxine* (Orchidaceae) 1
Embryogenesis
On embryos and embryoids 401
Embryoid
On embryos and embryoids 401
Embryo
On embryos and embryoids 401
Endocarp
Sclerids in the endocarp of *Rauvolfia serpentina* (L.) Benth. ex Kurz 79
Environment
Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi* 45
Epidemiology
Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi* 45
Erucic acid
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281
Euchrysops pandava
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509
Euphorbia hirta
Morpho-histologic studies on three herbaceous species of railway track 305
Excrescences
Scanning electron microscopic studies on the seed coat surface patterns of South Indian species of *Lindernia* All. (Scrophulariaceae) 499

Extra-aquatic fungi
Seasonal variation and distribution of fungi in two freshwater ponds of Andhra Pradesh, India 237

Fabaceae
Seedling handedness in Fabaceae 231

Faecal pellets
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509

Filicales
The family Plagiogyriaceae Bower in India 371

Fimbristylis
Cyperaceae: XVIII. A new section and a species in *Fimbristylis* (L.) Vahl, and its vegetative anatomy 443

Flacourtiaceae
Pollen morphology of some Flacourtiaceae 163

Flavonoid pattern
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217

Flavonols
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293

Flower
Pharmacognostic studies on the flower of *Woodfordia fruticosa* Kurz 335

Foeniculum vulgare Gaertn
Studies on the developmental anatomy of Umbellifers. II. Stem-node-leaf continuum 457

Foliar sclereids
Comparative morphology and taxonomic value of foliar sclereids in *Limonium* Tour. (Limoniaceae) 153
Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae) 9
Typology and taxonomic value of foliar sclereids in the Proteaceae 1. *Isopogon* R. Br. 31

Foveolate
Scanning electron microscopic studies on the seed coat surface patterns of South Indian species of *Lindernia* All. (Scrophulariaceae) 499

Free amino acids
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217

Fruitbodies
Factors affecting the production of fruitbodies of *Amanita muscaria* in plantations of *Pinus patula* 91

Fruiting in fungi
Fruiting of some light-requiring fungi as influenced by cellophane 137

Fruit wall
Ontogeny of the ovule, seed coat and fruit wall of *Dicoma tomentosa* Cass., Asteraceae 177

Fungicides
Development of resistance in *Gloeosporium ampelaphagum* and *Collectotrichum capsici* to fungicides 535

Fungal biomass
Supplementary value of single cell protein from *Myrothecium verrucaria* to wheat protein 275

Fusiform initials
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143

Gamma ray irradiation
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281

Gas chromatography
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281

Genus polygola
The genus *Polygola* L. (Polygalaceae) in Andhra Pradesh, Kerala and Tamil Nadu (South India) 107

Geomagnetic force
Seedling handedness in Fabaceae 231

Germination
Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 555

Gloeosporium ampelophagum
Development of resistance in *Gloeosporium ampelophagum* and *Collectotrichum capsici* to fungicides 535

Gossypium hirsutum L.
Cytomorphological studies in x-ray induced glandless haploids in *Gossypium hirsutum* L. (cotton) 313

Gum-resin canals
Histological changes in the gum-resin producing cell system in *Commiphora mukul* Engl. induced by mechanical injury 129

Handedness
Seedling handedness in Fabaceae 231
Heartwood
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng 425
Histochemistry
Some histochemical observations on leaf abscission zone in *Capsicum annuum* L. 435
Host plant
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465

Illumination
Profiles of illumination, leaf temperature and water relations of barley in dry and wet soil under field conditions 515
Induced haploidy
Cytomorphological studies in x-ray induced glandless haploids in *Gossypium hirsutum* L. (cotton) 313
Indweller
Seasonal variation and distribution of fungi in two freshwater ponds of Andhra Pradesh, India 237
Infection
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Injury
Histological changes in the gum-resin producing cell system in *Commiphora mukul* Engl. induced by mechanical injury 129
Inoculum density
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Interrelationship
Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids 227
Interspecific hybrids
Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids 227
Interspecific hybrids
Investigations on cytogenetics and development of improved pest-resistant egg-plant germplasm 59
Ipomoea batatas (L.) Lam
Initiation of adventitious buds in tuberous roots of *Ipomoea batatas* 541
Isomerism
Seedling handedness in Fabaceae 231
Isopogon
Typology and taxonomic value of foliar sclereids in the Proteaceae 1. *Isopogon* R. Br. 31

Kunstleria keralensis
Kunstleria Prain — A new genus record for India and a new species in the genus 207

Leaf abscission zone
Some histochemical observations on leaf abscission zone in *Capsicum annuum* L. 435
Leaf extracts
Sporulation of *Pyricularia* spp.: Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L. 389
Leaf water potential
Profiles of illumination, leaf temperature and water relations of barley in dry and wet soil under field conditions 515
Leucoscypha
The genus *Leucoscypha* (Pezizales) and the re-evaluation of its species occurring in India 471
Limoniaceae
Comparative morphology and taxonomic value of foliar sclereids in *Limonium* Tour. (Limoniaceae) 153
Limonium
Comparative morphology and taxonomic value of foliar sclereids in *Limonium* Tour. (Limoniaceae) 153
Luminescence
Effect of chemical reductant and photosystem II light on the yield of chlorophyll *a* luminescence in isolated chloroplasts 353
Lythraceae
Pharmacognistic studies on the flower of *Woodfordia fruticosa* Kurz 335

Maize
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Mentha spicata
Mutation studies in *Mentha spicata* L. 211
Metabolic studies
Metabolic studies in *Sorghum vulgare* Pers. and *Zea mays* L. during seedling growth 71
Morphology
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485

Morus nigra L.
Modification of sex-expression and fruit-formation on the male plants of *Morus nigra* L. by chlorflurenol 395
Mutants
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281
Myrothecium verrucaria
Supplementary value of single cell protein from *Myrothecium verrucaria* to wheat protein 275

Navicula pelliculosa
Relative concentrations of Na, Ca and Mg for growth of some diatoms 169
New *Kunstleria*
Kunstleria Prain — a new genus record for India and a new species in the genus 207
New species
Interesting new species of *Cassia* Linn. (Leguminosae) from Kolaba (Maharashtra) 199
Nitzschia frustulum
Relative concentrations of Na, Ca and Mg for growth of some diatoms 169
Normal stomata
Structure and development of normal and abnormal stomata in the seedlings of some Cruciferae 521
Nymphoides macrospermum
Pharmacognostical studies on *Nymphoides macrospermum* Vasudevan (Menyanthaceae) and comparison with *Valeriana jatamansi* Jones (Valerianaceae) 323

Oil
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281
Ontogeny
On embryos and embryoids 401
Ontogeny of the ovule, seed coat and fruit wall of *Dicoma tomentosa* Cass., Asteraceae 177
Ontogeny of the tricytic stoma—Variations and modifications 85
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485
Orchidaceae
Embryogenesis in sexual and asexual species of *Zeuxine* (Orchidaceae) 1
Organic amendments
Effect of organic soil amendments on the rhizosphere microflora of tomato 189
Ornamentation
Scanning electron microscopic studies on the seedcoat surface patterns of South Indian species of *Lindernia* All. (Scrophulariaceae) 499

Pearl millet
Carpel infection and establishment of downy mildew mycelium in pearl millet seeds 99
Peronosclerospora sorghi
Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi* 45
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Pezizales
The genus *Leucoscypha* (Pezizales) and the re-evaluation of its species occurring in India 471
Pharmacognosy
Pharmacognostical studies on *Nymphoides macrospermum* Vasudevan (Menyanthaceae) and comparison with *Valeriana jatamansi* Jones (Valerianaceae) 323
Pharmacognostic studies on the flower of *Woodfordia fruticosa* Kurz 335
pH
Effect of buffer and pH on growth and protein content of carrot (*Daucus carota* L.) in liquid shake culture 183
Phenolics
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng. 425
Phenology
Seasonal variation and distribution of fungi in two freshwater ponds of Andhra Pradesh, India 237
Phenylalanine ammonia lyase
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293
Photosynthesis
Effect of chemical reductant and photosystem II light on the yield of chlorophyll *a* luminescence in isolated chloroplasts 353
Photosystem II
Effect of chemical reductant and photosystem II light on the yield of chlorophyll *a* luminescence in isolated chloroplasts 353

Pigeon pea
Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 555
Pinus patula
Factors affecting the production of fruit bodies of *Amanita muscaria* in plantations of *Pinus patula* 91
Plantation age
Factors affecting the production of fruit-bodies of *Amanita muscaria* in plantations of *Pinus patula* 91
Plant responses
Morpho-histologic studies on three herbaceous species of railway track 305
Poaceae
Reproduction in two species of *Arundinella* Raddi, Poaceae 477
Pollen morphology
Pollen morphology of some flacourtiaceae 163
Pollen germination
Optimum cultural requirements for *in vitro* germination of *Amaryllis vittata* Ait (Amaryllidaceae) pollen 363
Pollution
Morpho-histologic studies on three herbaceous species of railway track 305
Population effect
Optimum cultural requirements for *in vitro* germination of *Amaryllis vittata* Ait (Amaryllidaceae) pollen 363
P. oryzae
Sporulation of *Pyricularia* spp.: Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L. 389
Positive photoblastism
On photoblastism in seed germination of *Duabanga sonneratioides* Ham 547
Proteaceae
Typology and taxonomic value of foliar sclereids in the Proteaceae 1. *Isopogon* R. Br. 31
Protein efficiency ratio
Amino acid composition and protein efficiency ratio (PER) of *Spirulina platensis* 451
Protein
Effect of irradiation and chemical treatment on yield and quality of *Brassica juncea* (L.) seed and oil 281
Proline
Studies on salt tolerance of Pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 555
Pseudotransverse division
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143
Pteridophyta
The family Plagiogyriaceae Bower in India 371
Pupa
Microscopic examination of faecal pellets of insect larvae feeding on leaves of some cycads 509
Purple nutsedge
Growth, development and carbohydrates in purple nutsedge 413
***Pyricularia* spp.**
Sporulation of *Pyricularia* spp.: Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L. 389

Rainfall
Factors affecting the production of fruit-bodies of *Amanita muscaria* in plantation of *Pinus patula* 91
Rauvolfia serpentina
Sclereids in the endocarp of *Rauvolfia serpentina* (L.) Benth. ex Kurz 79
Ray initials
Developmental changes in the vascular cambium of *Delonix regia* Rafin 143
Ray parenchyma cells
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng 425
Re-evaluation of species
The genus *Leucoscypha* (Pezizales) and the re-evaluation of its species occurring in India 471
Resistance
Development of resistance in *Gloeosporium ampelophagum* and *Collectotrichum capsici* to fungicides 535
Rhizomes
Mutation studies in *Mentha spicata* L. 211
Rhizosphere microflora
Effect of organic soil amendments on the rhizosphere microflora of tomato 189
Rosaceae
Revision of the genus *Sibbaldia* L. (Rosaceae) in India 253
Rosales
Revision of the genus *Sibbaldia* L. (Rosaceae) in India 253
Rutaceae
Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae) 9

Salinity
Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 555
Salt tolerance
Studies on salt tolerance of pigeon pea cultivars 1. Germination, seedling growth and some physiological changes 555
Saprolegniaceae
Seasonal variations and distribution of fungi in two freshwater ponds of Andhra Pradesh, India 237
Sapwood
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng. 425
Scanning electron microscopy
Scanning electron microscopic studies on the seedcoat surface patterns of South Indian species of *Lindernia* All. (Scrophulariaceae) 499
Sclereids
Sclereids in the endocarp of *Rauvolfia serpentina* (L.) Benth. ex Kurz 79
Sclerospora graminicola
Carpel infection and establishment of downy mildew mycelium in pearl millet seeds 99
Seed coat
Ontogeny of the ovule, seed coat and fruit wall of *Dicoma tomentosa* Cass., Asteraceae 177
Seed coat surface pattern
Scanning electron microscopic studies on the seed coat surface patterns of South Indian species of *Lindernia* All. (Scrophulariceae) 499
Seed germination
On photoblastism in seed germination of *Duabanga sonneraticides* Ham. 547
Seedling
Metabolic studies in *Sorghum vulgare* Pers. and *Zea mays* L. during seedling growth 71
Sex-expression
Modification of sex-expression and fruit-formation on male plants of *Morus nigra* L. by chlorflurenol 395
Shoot bud
On embryos and embryoids
Supplementary value of single cell protein from *Myrothecium verrucaria* to wheat protein 275
Single cell protein
Supplementary value of single cell protein from *Myrothecium verrucaria* to wheat protein 275
Amino acid composition and protein efficiency ratio (PER) of *Spirulina platensis* 451
S. nigrum
Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids 227
Solanaceae
Vein-endings in some Solanaceae 53
Solanum incanum L.
Investigations on cytogenetics and development of improved pest-resistant egg-plant germplasm 59
Solanum melongena L.
Investigations on cytogenetics and development of improved pest-resistant egg-plant germplasm 59
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293
Solanum retroflexum
Cytology of *Solanum nigrum* L., *S. retroflexum* Dunn. and their hybrids 227
Soluble sugars
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex 217
Sorghum downy mildew
Effect of some environmental factors on the asexual phase of *Peronosclerospora sorghi* 45
Sorghum
Factors affecting infection by *Peronosclerospora sorghi* on sorghum 465
Sorghum vulgare
Metabolic studies in *Sorghum vulgare* Pers. and *Zea mays* L. during seedling growth 71
Spearmint oil
Mutation studies in *Mentha spicata* L. 211
Spirulina platensis
Amino acid composition and protein efficiency ratio (PER) of *Spirulina platensis* 451
Stoma
Ontogeny of the Anomocytic stoma — variations and modifications 245
Stomatal conductance
Profiles of illumination, leaf temperature and water relations of barley in dry and wet soil under field conditions 515

Stomata
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485
Stimulation
Sporulation of *Pyricularia* spp.: Stimulation by detached leaves and leaf extracts of *Commelina benghalensis* L. 389

Taxonomic revision
The *genus Polygala* L. (Polygalaceae) in Andhra Pradesh, Kerala, and Tamil Nadu (South India) 107
Taxonomic significance
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485
Taxonomic value
Comparative morphology and taxonomic value of foliar sclereids in *Limonium* Tour. (Limoniaceae) 153
Tissue culture
Effect of buffer and pH on growth and protein content of carrot (*Daucus carota* L.) in liquid shake culture 183
Tissue differentiation
On embryos and embryoids 401
Tomato
Effect of organic soil amendments on the rhizosphere microflora of tomato 189
Total proteins
Cytologic, morphologic and chemotaxonomic studies in *Dactyloctenium aegyptium* (L.) Beauv. complex. 217
Tracheoids
Vein-endings in some Solanaceae 53
Tracheoids
Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae) 9
Transition zone
Wood anatomy and histochemical changes of sapwood during heartwood formation in *Bridelia retusa* Spreng. 425
Tree adaptation
On photoblastism in seed germination of *Duabanga sonneraticides* Ham. 547
Tricytic
Ontogeny of the tricytic stoma — Variations and modifications 85
Trigonella
Cytomixis in pollen mother cells of an exotic variety of *Trigonella foenum-graecum* L. 285
Transgressive hybrids
Investigations on cytogenetics and development of improved pest-resistant eggplant germplasm 59
Tuberization
Growth, development and carbohydrates in purple nutsedge 413
Tuberous roots
Initiation of adventitious buds in tuberous roots of *Ipomoea batatas* 541
Typology
Comparative morphology of foliar sclereids in *Boronia* Sm. (Rutaceae) 9
Typology and taxonomic value of foliar sclereids in the Proteaceae 1. *Isopogon* R. Br. 31
Tyrosine ammonia lyase
Role of phenylalanine and tyrosine ammonia lyase enzymes in the pigmentation during development of brinjal fruit 293
Umbellifers
Studies on the developmental anatomy of Umbellifers. II. Stem-node-leaf continuum 457
Valeriana jatamansi
Pharmacognostical studies on *Nymphoides macrospermum* Vasudevan (Menyanthaceae) and comparison with *Valeriana jatmansi* Jones (Valerianaceae) 323
Vegetative anatomy
Cyperaceae: XVIII. A new section and a species in Fimbristylis (L.) Vahl, and its vegetative anatomy 443
Vegetative and floral organs
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485
Verbena
Structure and ontogeny of stomata on the vegetative and floral organs in nine species of *Verbena* 485
Vibration
Morpho-histologic studies on three harbaceous species of railway track 305
Woodfordia fruticosa
Pharmacognostic studies on the flower of *Woodfordia fruticosa* Kurz. 335
Zea mays
Metabolic studies in *Sorghum vulgare* Pers. and *Zea mays* L. during seedling growth 71
Zeuxine
Embryogenesis in sexual and asexual species of *Zeuxine* (Orchidaceae) 1

AUTHOR INDEX (Plant Sciences)
